Monthly Summary	1
Bus Ridership by Route.....	2
Rail Ridership by Entrance	8

How to Read This Report

This document reports on counts of all CTA bus and rail vehicle passenger boardings, which can be referred to as ridership. Ridership counts are provided for bus and rail modes and the combined system total. Ridership counts are also provided at the route level for bus and branch and station level for rail. This report also provides summary information on Paid and Underpaid rides as well as Cross-Platform Transfers which are all defined below.

The **Paid** category includes rides where the authorized fare was fully paid, including authorized reduced fare rides and authorized zero-cost rides.

The **Underpaid** category includes rides where no payment or some payment less than the authorized amount was made.

Cross-Platform Transfers are authorized free, ungated transfers from one rail line to another such as between the Orange, Green and Red Lines at Roosevelt, where passengers don't pass through a turnstile to gain access to the vehicle they are transferring to. Technically, these transfers are **Paid** rides (authorized zero-cost) but they are listed separately on the summary page for transparency as they are not included in the station level counts.

The Route and Branch/Station ridership section provided in this report includes Paid and Underpaid rides except for Cross-Platform Transfers.

Some bus boardings are tallied as Route 0. This occurs when route information cannot be ascertained due to equipment communication issues. Route 0 rides are not included in the Ridership by Route section of the report; however, they are included in the monthly bus system totals.

Some CTA stations serve more than one line. The "Rail Entries" report does not show the number of customers boarding each line at such stations, simply the total number of customers who entered the station. For example, Howard station is listed under the Red Line only while its ridership count includes boardings for the Red, Purple and Yellow Lines.

How do I compare this year to last year? What is a “Calendar Adjustment”?

When comparing one year to another, it is often best to use the weekday, Saturday, and Sunday averages rather than totals. A monthly or annual total is affected by not only the number of weekdays, Saturdays, and Sundays, which can vary somewhat from year to year, but also based on what days of the week certain holidays fall on. For example, June 2024 and 2025 had the following breakdown of days:

	<u>2024</u>	<u>2025</u>
Weekdays	20	21
Saturdays	5	4
Sunday/Holidays	5	5

As weekdays typically have much higher ridership than Saturdays, June 2025 would report higher total monthly ridership than June 2024, all else equal. Using averages by day type circumvents this problem.

For the purposes of month-to-month and year-over-year comparisons, the report also includes a “Calendar Adjusted” annual total of bus, rail, and system ridership. This is calculated by applying a normalization factor to a given month’s total ridership figures to correct any discrepancies in the number of weekdays, Saturdays, and Sundays, thereby making the data comparable.

Note that New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas Day are considered as “Sundays” for the purposes of ridership reporting, as CTA operates a Sunday schedule on these holidays. All other holidays are reported as the type of day they fall on.

Monthly Summary

Calendar Operating Days		
Day Type	Last Year	This Year
Weekdays	22	22
Saturdays	4	4
Sundays	5	5

When analyzing monthly ridership trends, it is important to account for the possibility that the same month may have a different number of weekdays, Saturdays, and Sundays each year. Monthly ridership statistics are provided below as both 'actual total' and 'calendar adjusted total', the latter being a normalized figure that facilitates year-to-year and month-to-month comparisons.
